STRUCTURE

Made of steel plate with rounded corners. It has 4 drawers with telescopic slides, allowing total opening of the drawers. The first drawer has 16 dividers for the organization of medicines and the others for general use.

COMPLEMENTS

Support for cardioverter, defibrillator and monitor in steel plate with painted finish with 360 degree rotation. Lateral support for oxygen cylinder. Board for cardiac massage. Rail for 4-point power outlets. Single seal for drawers.

CASTERS

4" casters with double tread, two of them with brakes.

SHOCKHOLDERS

Wall protection bumpers in high-impact polyurethane skin.

PAINTING

Powder electrostatic painting with anti-corrosion treatment.

OPTIONALS

- Individual locking for drawers (optional).
