

# VLT-580

## Retractable Reclinable Armchair

\*USB port available in the electric option.

### STRUCTURE

Internal structure in carbon steel tubes and plates covered by electrostatic painting, ensuring the mechanical resistance required for the severe daily use of a hospital.

### UPHOLSTERY

Seat in D-28 Soft non-deformable foam, backrest in D-26 Soft, and synthetic leather covering. Seat base in zig-zag springs, making the set more comfortable.

### MECHANISMS

Zero-Wall mechanism, allowing proximity to the wall when reclining the backrest. Allows 3 positions: closed, reading and reclined. Provides maximum comfort with minimum effort. Available in manual and electric options.

### ARMS

Upholstered, structured in tubes and steel plates.

### OPCIONAL

- Arm with wooden detail.
